

# JOSPER BASQUE GRILL PVJ

## PVJ-050-2

High-temperature resistant element which guarantees smooth, continuous movement of the grill. The Basque Grill has been designed for optimal thermal insulation:

- Exclusive ventilation system based on multi-chambers air circuit.
- Inside protection barrier with mineral insulation.
- Heat conduction unforced flow, limiting heat transfer to reduce the outside temperature of the Jospier basque grill, and thus be easy to fit.

In the manufacturing process of the Basque Grill we use the best high technology steel alloys created by and for Jospier, as well as the most advanced design in the construction of traditional grills.
